

Puppy socialisation chart

HALL VETERINARY SURGERY BEHAVIOUR ADVICE

The goal is that the puppy has positive experiences, not neutral or bad ones.

It's important to watch the puppy's response and note what it is and to also give treats to help ensure the exposure is a success. Here's a checklist that can help you.

Comprehensive socialisation notes available at: www.drSophiayin.com

The socialisation, handling and training of a puppy is best done between the ages of 6 and 18 weeks. It is at this time that the young dog will accept almost anything, provided that it is (or accompanies) a positive experience. The main factor in training puppies at this age is this focus on positive reinforcement. A new puppy does not yet know what is right or wrong, so rather than scolding it for doing something undesirable, encouragement should be given for performing desirable behaviour.
